fun to play and has an interesting storyline. Super Mixtape has a unique take on the side scrolling platformer, with challenging controls and an upbeat rhythm.

You traverse several levels, unlocking new beats and mastering the unique movement mechanics to reach your goal, which is of course, a boombox!

There's nothing to dislike about this game, it's simple yet complex, great fun, and I can't wait to see what comes of it. It has potential to be a top indie title.

Super Mixtape, more like Super Funtape!. It's worth it. - I feel like I'm just doing random stuff and I have no use in the game. You can change your ships parts, but the descriptions are pretty useless and there are no stats. Mechanics are not explained well. I want to like this game, but I don't.. The game is too simple. Add more enemies. And more lore. And bosses. And bonfires. This is a bit of a mixed bag. The game was fine, I think it's well worth the price, but it's just... bland? tedious? repetitive? all of the above?

It's hard to put my finger on exactly what it is about ANKI but there's something... off. It's not a BAD game by any means, but I wouldn't call it a good one either. If you've got nothing better to get with a dollar then go ahead, otherwise go buy some steam trading cards to finish off that next badge in your collection or something.. This game is legendary. probably the most realistic game I've ever played. It is insanely fun and intense. Truly an amazing horror game. It is incredibly scary and I assure you, you wont be sleeping for a while after playing this. There is nothing more satisfying than blasting your way through a bunch of little heads (children). I highly recommend this game for anyone who is looking for an extremely realistic horror game.. Easily one of the best Tower defence games there is (and theres a shameful lack of good tower defence games)

If u like TD games this is simply a must have. An Empire TW DLC that actually adds some interesting units. I am surprised.

Does this Map have "Medicinal MJ" Stores? i can picture 47 Smoking a Doob.. but that's another game altogether.. This is a very difficult game! Dark souls rest. Very Funny and interesting. But not enough animations and a bit silly NPCs. 7/10 for indie game.. It works as intended and it's very simple to use.. No matter how good you think you are, don't press New Wave, like ever, you gonna regret it, don't be cocky dumbass like me.

Both game and soundtrack are dope though.. cheap and fun af. So MR foster can root and have Foster Jr. This game is broken/incomplete.

As a Steampunk lover, I love the art in this game. The enviornment, characters, and clothing in this game encompasses everything Steampunk.

What SUCKS is the gameplay. The camera jumps around on you unexpectedly and there is very little direction in the game.

Also there are some bugs with the boss fight were you cannot doge projectiles because thier invisible (when they're not supposed to).

Overall DO NOT GET THIS GAME.. \u2665\u2665\u2665\u2665 YOU!
