Encrypt device

You can encrypt accounts, settings, downloaded applications and their data, media and other files. Once your device is encrypted, you will need to enter a PIN or password to decrypt it every time you turn it on.

Encryption takes an hour or more. Before you start, ensure that the battery is charged and keep the device plugged in until encryption is complete. Interrupting this process may lead to the loss of some or all of your data.

Charge battery to above 80%

Plug in charger

Set an unlock password of at least 6 characters, containing at least 1 number

Set screen lock type
